

Interface to American Tire Distributors®

Interface to American Tire Distributors®

Would replenishing your inventory be easier if you knew which items your distributor had on hand before placing an order?

With the Interface to American Tire Distributors, you can check item availability without leaving your TireMaster system. The interface electronically connects TireMaster to your local ATD warehouse, allowing you to see whether an item is in stock, how much it will cost, and how much federal excise tax you'll be charged for it. With this information at your fingertips, you can avoid back orders and control inventory costs.

In addition to providing available quantities, the interface also streamlines the ordering process with American Tire Distributors. When you create a purchase order in TireMaster, you can place the order with your ATD warehouse at the same time. The interface can also be used in a similar manner to create or update receiving documents for your ATD vendor.

TireMaster and the Interface to American Tire Distributors help you:

- Avoid back orders
- Control costs
- Eliminate steps from the ordering process
- Save time

To learn more about using the Interface to American Tire Distributors, call **800-657-6409**, email info@asatire.com, or visit www.asatire.com.

"I love being able to see available quantities before I place an order. I've noticed the number of back orders has dropped since I started using the ATD Interface."
