

## Acquirint Payment Processing

**Would managing credit card activity be easier if the same application could be used to process both major cards and industry-specific cards?**

Acquirint, a payment processing application that handles the four major credit cards and a variety of industry-specific cards (including Voyager, Bridgestone, and Firestone) is integrated with TireMaster.

When a customer pays with a credit card, you seamlessly move from TireMaster to Acquirint, scan the card, and return to TireMaster to complete the sale. The transaction is processed over the internet and the card authorization is printed on the TireMaster invoice. Separate terminals, printers, or phone lines aren't needed, and you can give customers one receipt.

Because Acquirint processes industry-specific cards along with the major credit cards, there is no need to implement separate procedures for handling the various card types.

### *TireMaster and Acquirint help you:*

- Reduce errors associated with manual card processing
- Shorten sale completion times
- Eliminate extra point of sale equipment
- Simplify credit card handling procedures

For more information about using Acquirint with TireMaster, call **800-657-6409**, email **info@asatire.com**, or visit **www.asatire.com**.

*"Adding Acquirint helped me simplify my point of sale operations. I've been able to consolidate all of my credit card handling procedures into a single process!"*

Acquirint is a proprietary brand of Innuity, a Redmond, Washington-based provider of integrated payment processing systems. Bridgestone and Firestone credit cards are distributed by Credit First National Association (CFNA).
