

Activant ShopCat™

When quoting parts and labor, would it help if you could save time, increase accuracy, and eliminate standalone shop catalogs?

TireMaster's integration with Activant ShopCat™ does just that. Designed to work together, TireMaster and Activant ShopCat can help you boost sales, increase profits, and improve customer satisfaction.

Activant ShopCat is an electronic shop catalog that includes a comprehensive listing of parts, labor, service intervals, and tire-fitment data. Activant ShopCat includes PartExpert®, the most comprehensive e-catalog in the industry, as well as data for labor estimates, service intervals, and tire application and fitment specifications.

Using Activant ShopCat with TireMaster helps you streamline your point-of-sale processes. With just a few clicks, you can find the parts and labor you need, and add them to a work order directly from your TireMaster invoicing screen. There's no more fumbling through a bulky manual and no switching between your point-of-sale software and a standalone electronic catalog. With ShopCat, you can price your parts more accurately, sell them at the highest profit margins, and save time!

TireMaster and Activant ShopCat help you:

- Speed up quoting time
- Increase the accuracy of estimates
- Reduce customer wait time
- Eliminate unsightly countertop clutter
- Increase customer satisfaction

To learn more about using Activant ShopCat with TireMaster, call **800-657-6409**, email **info@asatire.com**, or visit **www.tiremaster.com**.

Activant ShopCat™

"Cleaning up my front counter was great, but the best part about ShopCat is the amount of time I save quoting parts and labor, and the increased accuracy and profits I get from it!"
