

## General Ledger

Feel trapped by your bookkeeping chores? You don't have to. With TireMaster, you can ease the burden of daily accounting tasks, and more importantly, escape from the back office.

### **Why does preparing the books for my accountant take so long?**

#### *Barriers*

- Can't see how transactions posted to the general ledger
- Difficulty looking up journal entries related to an invoice
- Gross margin distorted by national-account and government-support sales
- Inability to post checking account activity directly to the general ledger
- Difficulty collecting the proper amount of sales tax

#### *Breakthroughs*

- View and print a list of all journal entries by date, fiscal period, or account number
- Search for invoices and related journal entries by document or reference number
- Display summary of net gain/loss for low profit sales on the income statement
- Transactions for multiple checking accounts post to the general ledger automatically
- Flexible sales tax module accommodates multiple tax rates

With TireMaster, the books are automatically updated at the end of each transaction, which means less work for you and your bookkeeper. Because of the electronic paper trail, you'll spend fewer of those precious minutes tracking down information about business activity. Imagine what you could do with the extra time!

### **Additional Features**

- Customized chart of accounts
- Custom settings for controlling how information is displayed on financial reports
- Tool for making manual journal entries, when needed
- Fiscal periods can be unlocked and relocked until the year is closed
- Ability to delay year-end close up to 12 months
- Can make general ledger accounts inactive
- Flexible fiscal calendar to accommodate a short tax year, if needed
