

Mitchell 1® OnDemand5™

Mitchell 1® OnDemand5™

Would it help if you didn't have to interrupt your workflow to look up service and repair information in a standalone labor guide?

Because Mitchell 1 OnDemand5 can be integrated with TireMaster, you can access comprehensive service and repair information at point of sale and from the service checklist.

Mitchell 1 OnDemand5 is a web-based guide that includes industry standard labor times and parts information for a wide range of jobs and vehicles. You can look up this information by labor category, mileage-based service intervals, time intervals, and fluid capacity. Labor times, labor descriptions, parts descriptions, and suggested retail prices listed in OnDemand5 can be imported into TireMaster to create detailed estimates and work orders.

OnDemand5 is also a source of extensive reference information. Articles, diagrams, checklists, and technical service bulletins (called TSBs) that include the latest vehicle troubleshooting and repair information are all available.

TireMaster and OnDemand5 help you:

- Locate service and repair information quickly
- Provide detailed estimates
- Complete services and repairs correctly
- Stay up-to-date on automotive news
- Improve customer satisfaction

To learn more about using Mitchell 1 OnDemand5 with TireMaster, call **800-657-6409**, email info@asatire.com, or visit www.asatire.com.

"Being able to pull labor rates from OnDemand5 into TireMaster makes preparing estimates easier than ever, and my mechanics love having access to that massive amount of repair information."
