

Mitchell 1

What if your software enabled you to instantly enter the Mitchell 1 OnDemand5 Estimator and Repair software, quickly get the parts and labor information you need, and with one click bring that information directly back into your TreadX Point of Sale screen for quoting? It can.

ASA Tire Systems has partnered with Mitchell 1 to save you time and money. Your ASA TreadX software interfaces with the Mitchell 1 Repair and Estimator OnDemand5 System. The TreadX integration to the Mitchell 1 OnDemand5 software will help you make your salespeople more productive! Why create estimates in one system, and then re-create them in your point of sale software? With TreadX and Mitchell 1 you'll eliminate:

- Time spent re-keying repair and estimate orders into your POS screens
- Costly errors re-keying repair and estimate orders into your POS screens

Powerful, yet simple to navigate, Mitchell 1's OnDemand5 Repair delivers sophisticated search capability and unmatched speed. Save valuable time diagnosing complex wiring systems using Scalable Vector Graphic (SVG) technology and get more coverage than any other system for:

- Accessories
- Air Bags
- Air Conditioning & Heating
- Brakes
- Clutches
- Diagnostics
- Drive Axles
- Electrical
- Emission Controls
- Engine Cooling
- Engine Performance
- Maintenance
- Recalls
- Steering
- Suspension
- TSBs
- Transmission Servicing
- Transmission Electronic Diagnosis
- Wheel Alignment
- Writing Diagrams

Breakthrough features include powerful search tools, multiple labor rates, and unlimited estimate history. OnDemand5 Estimator helps you build accurate estimates easily by giving you access to the most comprehensive parts and labor database in the industry, including:

- OEM part numbers & prices
- Accurate labor times for 1974-current model year domestic & import vehicle models
- OEM parts illustrations
- Integrated OEM parts locator
- Direct access to genuine NAPA parts

Whether you're considering TreadX for the first time, looking at Mitchell 1, or wanting to integrate the two, simply contact an ASA Sales Representative today toll free at 866-210-6717 or email info@asatire.com.

"My salespeople were wasting time and money quoting jobs. They were doing an estimate, and then re-keying it into our POS system. It wasn't just more work, they were making costly errors re-keying their work."
